Introduction

This general index to published reports of the Mineral Resources Group for the ten year period 1966 to 1975 is the eighth volume in a series covering reports issued since the establishment of the former Ontario Bureau of Mines in 1891.

The 216 reports covered in this index are listed below:

Report Series	**Report Designator**	**Report Number**
Annual Reports	**AR**	**74 to 80**
Annual Statistical Reports	**ASR**	**1 to 3**
(Geological) Reports	**GR**	**43 to 129, 132**
Geophysical Reports	**GPR**	**1, 2**
Guidebooks	**GB**	**1 to 4**
Industrial Mineral Reports	**IMR**	**21 to 42**
Mineral Policy Background Papers	**MPBP**	**1, 2**
Mineral (Resources) Deposit Circulars	**MRC**	**4 to 14**
Miscellaneous Papers	**MP**	**3 to 50, 52 to 63**
Papers (Oil & Gas)	**PAP**	**67-1 to 74-1**
Preliminary Reports	**PR**	**66-1**
Studies (Geological/Geoscience Circulars)	**S**	**15**

Open File Reports, which are usually superseded by final reports, are not included. However, MP 77 (Index to Published Reports & Maps) is recommended as a helpful bibliographic reference to material not covered in this index.

Unlike the first seven volumes, this index uses a more condensed style, simpler categorization, and bold-face type for the keyword or first order entry to make the search for indexed terms easier. Indexing of mining properties is limited to their names and locations, without including related data such as assays, rock types, or exploratory work. Where appropriate, cross-references to other keywords are given to guide the user to synonyms or closely related terms.

This index uses up to four orders of entries. The first order consists of all individual, author, company, or property names; all geographic places, townships, or areas; all commodities, rock types, minerals; and all geological structures, features, bodies, formations, and complexes. The second order consists of analytical data, broad geological subjects (lithology, petrography), photos, commodities (if the first order is an area or township), and locational details. The third order usually consists of locational details of the keyword. A fourth order may be used if an extra line is needed. Economic aspects have been highlighted, thus commodities can be found in both first and second orders accompanied by a location. Entries are followed by a page number, report series, and number indicating where the information can be found. Examples of actual entries are given below:

i)			**report series** ↓
1st order	**Argillite**		
2nd order	**lithology**		
3rd order	**Trout L. area, Kenora Pat. Dist.**	**33-34**	**GR113**
ii)		↑ **page number**	↑ **report number**
1st order	**Trout Lakes area, Kenora Pat. Dist.**		
2nd order	**Geology of the area**		
3rd order	**Report, map 2270 & chart on, 1974**		
4th order	**byL.D. Ayres**		**GR113**
2nd order	**copper**	**138-144**	**GR113**
2nd order	**silver**	**137**	**GR113**

iii)

1st order	**Blackhall Mine**		
2nd order	N. Burgess Tp., Lanark Co.		
3rd order	mining property, report on	59	MRC008

iv)

1st order	**Copper**		
cross-ref	*See also* Base Metals		
cross-ref	Zinc-Copper-Silver		
2nd order	Mine Centre area, Rainy River Dist.	64	MP056

Over the years, geological terminology has changed. The terms acidic and basic, when describing rocks, have been changed to felsic and mafic respectively. During the time span covered in this index, "Mineral Resources Circulars" and "Geological or Geoscience Reports" have been changed to "Mineral Deposit Circulars" and "Reports" respectively. Previously numbered townships have also been given names. These townships are indexed as they are referred to in the reports. The names and numbers of a township are cross-referenced where either occur. In this index all ***Mc*** entries have been treated as ***Mac*** and sorted accordingly. Words preceded by the french articles ***La, Le, L'*** are sorted under ***L***.

Abbreviations used in this index are listed below.

Add'l	Additional
Assoc.	Associate(s), Association
Chem.	Chemical
Co.	Company
Co.	County
Corp.	Corporation
Dev.	Development, Developer(s)
Dist.	District
E.	East
Eng.	Engineer(s), Engineering
Escarp.	Escarpment
Expl.	Exploration, Explorer(s)
I. R.	Indian Reserve
Incorp.	Incorporation
Ind.	Industry, Industrial
Is.	Island
Kenora Pat. Dist.	Kenora District, Patricia Portion
L.	Lake
Ltd.	Limited
Mtn.	Mountain
N.	North
No.	Number
Pen.	Peninsula
Prod.	Production, Product(s)
Pt.	Point
R.	River
S.	South
sed	sediment(s), sedimentary
Syn.	Syndicate
Tp. (Tps.)	Township(s)
vol	volcanic(s)
W.	West

The reports indexed in this volume may be examined at the Mines Library, Room 812, 77 Grenville Street, Toronto, Ontario. For availability of the reports ***see*** the Publications Price List which may be obtained free of charge from the Public Service Centre, Ontario Ministry of Natural Resources, Room 1640, Whitney Block, Queen's Park, Toronto, Ontario, M7A 1W3.

The arduous task of indexing and editing was done by Mrs. Anna Barnett and Miss Janet Bloemendal at the Geoscience Data Centre.
